

KEY NOTE SPEAKERS

Professor Michael P. Collins, University of Toronto, Canada
In Search of Elegance

Professor Shoji Ikeda, Yokohama National University, Japan
Recent Developments in LWAC in Japan.

Mr. Steinar Helland, Selmer ASA, Norway
Lightweight Aggregate Concrete in the new European CEN Standards for Materials and Execution

Mr. Thomas A. Holm, ESCSI, Expanded Shale, Clay & Slate Institute, USA
Specified Density Concrete – A Transition

Dr. Ing. Karl Melby, Norwegian Road Administration - Møre and Romsdal county, Norway
Use of High Strength LWAC in Norwegian Bridges.

47

Professor, Dr. Ir. Joost Walraven, Delft University of Technology, The Netherlands
Design of Structures with Lightweight Concrete: Present Status of the Revision of EC-2

NEW STRUCTURAL CONCEPTS

The Use of LWAC in the Pontoon of the Nordhordland Floating Bridge, Norway
Jakobsen, S.E., Norway

Application of LWAC for the Superstructure of the TRANSRAPID
An optimization of serviceability
König, G., Novák, B., Pommerening, D., Germany

79

Cost Effective Structures with LWA Concrete
Olsen, T.O., Norway

Heavy Duty Floating Unit for the Offshore Industry
Olsen, T.O., Norway

99

Structural LWAC with Textiles as Reinforcement
Schnellenbach-Held, M., Pfeffer, K., Wegel, K., Germany

107

Ultra Lightweight Aggregate Concrete
Schnellenbach-Held, M., Pfeffer, K., Wegel, K., Germany

Rice Husk in Lightweight Mortars
Tamba, S., Cisse, I., Senegal, Rendell, F., Jauberthie, R., France

2. DESIGN

Ductile Response of Lightweight Aggregate Concrete Members
Allington, C.J., Bull, D.K., Park, R., McSaveney, L., New Zealand

The Shear Stress Capacity of Prestressed Beams Loaded with Shear Force and/or Torsional Moment
Bennenk, W., Janssen, H., The Netherlands

The Prestressed Steel – LWAC Bridge System
Bennenk, W., de Vlieg, A., The Netherlands

148

The Effects of LWC Slab on the Hysteretic Behaviour of One-way Interior Beam-Column Joints
Besari, M.S., Lauw, C.G.S., Indonesia

159

Compressive Strength of LWAC under Sustained Load
Breugel, K. van, Braam, C.R., The Netherlands

Dowel Action and Shear Friction in High Performance LWAC
Dehn, F., Germany

The Influence of Prestressing on the Shear and Flexure Behaviour of LWAC
Dehn, F., König, G., Fischer, O. Germany

Local Bond Strength of Reinforcing Bars Embedded in LWAC
Esfahani, M.R., Rasolzadegan, A-R., Iran

Supplements to Model Code 90 for LWAC
Faust, T., Germany, Holand, I., Helland, S., Norway

LWAC in Composite Structures
Faust, T., Leffer, A., Mensinger, M., Germany

Behaviour of Shear Connector Devices for Lightweight Steel-Concrete Composite Structures - Results, Observations and Comparisons of Static Tests
Galjaard, H.J.C., Walraven, J.C., The Netherlands

Shear Cracking Behaviour of Prestressed Concrete Beams
Hegger, J., Goertz, S., Molte, M., Germany

Codes and Standards for LWAC and "Case Studies" Demonstrating the Application of LWAC
fib Bulletin no 4 & 8.
Helland, S., Holand, I., Norway

Fatigue Properties of High Performance LWAC
Kojima, T., Takagi, N., Okamoto, T., Japan

LettKon - A Major Research Programme on LWAC
Maage, M., Olseth, T.C. Norway

High-Strength Lightweight Aggregate Concrete Slabs.
Marzouk, H., Canada, Osman, M., Helmy, S., Egypt

Eurolightcon - A Major European Research Project on LWAC
Mijnsbergen, J.P.C. The Netherlands, Aa. Hansen, E., Helland, S., Norway

Detailing Rules for LWAC
Moe, T.T., Norway

Shear Capacity of Normal Strength Super Lightweight Concrete Beams
Niwa, J., Kawaguchi, T., Maehori, S., Okamoto, T., Japan

Short and Long Term Strain and Strength Properties of LWAC
Stemland, H., Thorenfeldt, E., Norway

Tests of Støvset Bridge, Measurement and Analysis
Takacs, I.F., Kanstad, T., Hynne, T., Norway

Shear Capacity of Lightweight Concrete Beams without Shear Reinforcement
Thorenfeldt, E., Stemland, H., Norway

3. CONSTRUCTION

Use of LWAC in Bridges Daly, A.F., UK	345
The Economical Potential of LWAC in 4 Different Major Bridges Fergestad, S., Jordet, E. A., Norway	355
Pedestrian Composite Bridge made with Unbounded Prestressed LWAC Fischer, M., Dehn, F., König, G., Germany	365
The Effect of Lightweight Aggregate on the Pore Water Pressure during Slipforming Fosså, K.T., Norway	
The Wellington Stadium. New Zealand's First Use of High Strength Lightweight Precast Concrete McSaveney, L.G., New Zealand	385
Applicability of Newly Developed High-Strength Lightweight Concrete for Civil Structures. Nobuta, Y., Satoh, K., Hara, M., Sogoh, S., Takimoto, K., Japan	396
The Stolma Bridge – World Record of free Cantilevering Rosseland, S., Thorsen, T.A., Norway	406
Use of LWAC Gives a Cheaper Bridge Toverud, L., Moe, T.T., Hovland, E., Norway	416

4. MATERIALS

Strength of Lightweight Concrete Influenced by Strength of Lightweight Aggregate Adámek, J., Czech Republic	425
Modern State and Directions of Development of Production of Lightweight Concrete in Russia. Akhundov, A.A., Goudkov, Y.V., Russia	431
UK High Strength LWAC in Construction Bamforth, P.B., Nolan, É., UK	440
Effect of Initial Moisture Content and Particle Size Distribution of LWA on Autogenous Deformation Breugel, K. van, Lura P., The Netherlands	453
Potential of Mixtures with Blended Aggregates for Reducing Autogenous Deformation in Low Water / Cement Ratio Concrete Breugel, K. van, Vries, H. de, The Netherlands	463
On Determining Elastic Modulus of Lightweight Aggregate by Numerical Method Chen, H-J., Huang, Y.L., Taiwan	473
The Effects of Silica Fume and Fly Ash on the Thermal Conductivity of Lightweight Concrete Demirboga, R., Gül, R., Uysal, H., Düzgün, O.A., Turkey	483
The effects of Silica Fume and Fly Ash on the Freeze-thaw Resistance of Low Density Concrete Demirboga, R., Kurt, M., Gül, R., Aydyn, A.C., Turkey	492
Properties of Different Matrixes and LWAs and their Influences on the Behaviour of Structural LWAC Faust, T., Germany	502

The Behaviour of Structural LWAC in Compression Faust, T., Germany	512
Softening Behaviour of LWAC Faust, T., Germany	522
Prefabricated Floor Slabs in Roller-Compacted LWAC Goltermann, P., Denmark	531
Comparison of Properties of High Performance LWA and Normal LWA Guo, Y-S., Ding, J-T., P.R. China, Kimura, K., Japan, Li, M-W., Song P-J., P.R. China, Huang, M-J., Japan	540
Properties of High Performance Lightweight Aggregate Concrete Guo, Y-S., P.R. China, Kimura, K., Japan, Li, M-W., Ding, J-T., P.R.China, Huang, M-J., Japan	548
Water Permeability of LWAC Hammer, T.A., Hansen, E.A., Norway	562
Physical Characteristics Rotary Kiln Expanded Slate Lightweight Aggregate Harmon, K.S., USA	574
High Performance / High Strength Lightweight Expanded Blast Furnace Slag Aggregate Concrete Iarmakovsky, V.N., Russia	584
Fundamental Characteristics of Concrete Using High Strength Artificial LWA made Fly Ash Ishikawa, Y., Tomosawa, F., Hayakawa, M., Sasahara, A., Yasuda, M., Japan	593
Lightweight Aggregate Concrete in Hungary Józsa, Z., Ujhelyi, J. E., Hungary	603
A Novel Fluidized Bed Manufacturing of High Performance Artificial Lightweight Aggregate Kimura, S., Kamiya, H., Horio, M., Kimura K., Japan	
Production of New Lightweight Aggregates from Waste: Kwint, E., The Netherlands	623
Characteristics of High Performance Aggregate Produced from Fly Ash Using a Rotary Kiln Morishita, N., Sone, T., Yokoyama, H., Takada, S., Uji, K., Ozasa, K., Japan	
Mechanical Properties of LWAC after Exposure at High Temperature Noumowé, A., Aggoun, S., Cabrillac, R., France	64
Bond Properties of Lightweight Aggregate Concrete. Ofori-Darko, F. K., UK.	
Concrete and Masonry Rubble as Aggregates for Concrete: Something in Between Normal and Lightweight Concrete De Pauw, P., Taerwe, L., Desmyter, J., Belgium	660
Low Cost High Strength LWAC Application the Prefabrication Industry Poot, S., Breugel, K. van, The Netherlands	670
Properties and Design Characteristics of Polystyrene Concrete as Structural Heat Insulating Material Rakhmanov, V.A., Dovzhik, V.G., Russia	680
Second Generation LWA Concrete Reinhardt, H.W., Kümmel, J., Germany	690

High -Performance LWAC for Precast Structures: Properties in the Fresh and Hardened State. Rossignolo, J.A., Agnesini, M.V., C., Morais, J.A., Brazil	699
Controlling Freeze and Thaw Durability of Structural Grade Concrete with Recycled Expanded Polystyrene Aggregate Sabaa, B.A., Ravindrarajah, R.S., Australia	709
Impact Resistance of Polystyrene Aggregate Concrete with and without Polypropylene Fibres Sabaa, B.A., Ravindrarajah, R.S., Australia	19
Investigation of Pull-Out Strength Between Polystyrene Aggregate Concrete and Reinforcing Steel Sabaa, B.A., Ravindrarajah, R.S., Australia	
Measurement of Swelling and Shrinkage of Lightweight Aggregate Schmidt-Döhl, F., Thienel, K-Ch., Germany	737
Evaluation and Classification Systems of Lightweight Aggregates Sveinsdottir, E.L., Iceland	
Freeze-Thaw Resistance of LWAC made without Air-Entraining Agents Thienel, K-Ch., Germany	
Durability of High Performance LWA Vieira, M., Goncalves, A., Portugal	767
Study on Mix Proportion for Self Compacting High Performance LWAC Yanai, S., Sakata, N., Nobuta, Y., Okamoto, T., Japan	774
An Approach to Speeding up the Steps for Developing LWA and LWA Concrete in Shanghai Zhang, Y., China	784

5. CONCRETE PRODUCTION, TRANSPORTATION AND PLACING

Study on the Pumpability of High Performance LWAC Ishikawa, Yuko, Okamoto, T., Sakata, N., Kokubu, K., Japan	
Structural LWAC Specification and Guideline for Materials and Production. Maage, M., Smeplass, S., Norway, Thienel, K-Ch., Germany	802
Development of a Lightweight Aggregate Concrete Pumpability Test. Nolan, E., UK	811
Pumping of LWAC Based on Expanded Clay in Europe Norden, G., Norway, Thienel, K-Ch., Germany	823
Drying of LWAC Smeplass, S., Norway	831
Moisture in LWA – Practical Consequences for the Production Properties of LWA Smeplass, S., Norway	844

6. IN-SERVICE DURABILITY N-FIELD PERFORMANCE / DESIGN LIFE

Chloride Penetration in LWAC Beams Exposed to Alternating Moisture and Temperature Breugel, K. van, Taheri, A., The Netherlands	856
The Influence of Curing Conditions on the Chloride Diffusion in LWAC St Carlsen, J-E., Norway	866
Durability Surveillance of Bergsøysundet Bridge Fluge, F., Markey, I.F., Hasselø, J.A., Sletten, G.I., Espelid, B., Norway	
Long Term Durability Indicator of Total Lightweight Concrete Exposed to Hot Marine Exposure Conditions Haque, M.N., Al-Khaiat, H., Kuwait	
Service Life Modellir of Marine LWAC Structures Helland, S., Norway	894
Properties and Operating Behaviour of Some Light Concrete Structure Ionescu, I., Ispas, T., Romania	904
In-situ Tests on Existing LWAC Structures Thienel, K-Ch., Schmidt-Döhl, F., Feldrappe, V., Germany	
Some Aspects on Frezee and Thaw Durability of High Performance Natural LWAC Wallevik, O.H., Nielsson, I., Thordarson, B. R., Iceland	922
Air Entrainment as a Measure to Reduce Density of High Performance Weight Aggregate Concrete with a Main Emphasis on Natural Light Weight Aggregates Wallevik, O.H., Nielsson, I., Thordarson, B. R., Iceland	93
